

SLOW the FLOW

COLORADO

“
The auditor that came out was very knowledgeable, courteous & helpful - very thorough.
”

What is Slow the Flow Colorado?

Slow the Flow Colorado is a free sprinkler inspection program available primarily to residents of participating Colorado water providers. In some jurisdictions HOA's and commercial properties are also eligible. The sprinkler inspections - also known as irrigation audits - are conducted by trained water auditors.

Why should I participate?

- It's a professional service provided at **no charge** to you, with substantial benefits to your landscape
- Receive a customized watering schedule for a green, long-lasting landscape - for free!
- Learn easy, do-it-yourself sprinkler maintenance
- Learn how to maximize the life of your system
- Do your part to conserve Colorado's water!

How much does the inspection cost?

Nothing. Fifteen water providers partnered with the CRC to make this popular program free.

How long will it take?

The entire process will take about 2 hours.

When can I get an inspection?

Inspections run from June until August annually.

PARTICIPATING WATER PROVIDERS

Aurora Water	Left Hand Water District
Castle Pines Metropolitan District	City of Longmont
Town of Castle Rock	City of Louisville
Centennial Water & Sanitation	City of Northglenn
City of Boulder	Town of Superior
Town of Erie	City of Thornton
City of Golden	City of Westminster
City of Lafayette	

HOW IT WORKS

Sprinkler Inspection 101

Who will do the inspection?

Professionally-trained water auditors scheduled by the Center for ReSource Conservation (CRC).

What happens at the inspection?

A sprinkler inspection includes the following:

- A visual inspection to pinpoint any problems in your sprinkler system
- Tests to measure the precipitation rate of your sprinkler system
- Tests to determine how evenly the water is covering the intended area
- Soil sample to determine root depth and soil type

What will I get after the inspection?

You will receive a customized watering schedule as well as recommendations & tips to make your sprinkler system more effective and efficient.

SCHEDULE TODAY

Steps to a Free Inspection

1 Review your eligibility

If you receive water from a participating water provider AND you have an operating underground irrigation system, you are eligible. HOA's and commercial sites, please call (303) 999-3820 x217 for eligibility.

2 Request an Inspection

Online Complete the request form online at: www.ConservationCenter.org

Phone Call (303) 999-3820 x217

3 Schedule an Inspection

After we have received your request, we will contact you during the summer months to set up an individual 2-hour appointment with a trained water auditor at your home.

PROGRAM BASICS

Slow the Flow Colorado participants say...

"We appreciate this free service, especially since it is heavily directed toward water conservancy - and we are saving money as the consumer."

"The auditor was very thorough and even helped to unclog heads and direct spray direction on several heads. She was also early for the appointment and finished in a timely manner."

"Did I mention that the auditor was great?!? I cannot overstate her value to the community as well as to your organization."

"This was a tremendous help to me for conserving water while maintaining a healthy lawn."

"This is a wonderful program, and I am so grateful that we were able to receive this irrigation audit! I will encourage my neighbors to sign up for this."

"I've told all my neighbors about it and suggested they get on the list for next year. They're all excited."

"The auditor was on time and explained my problems effectively in an easy to understand manner."

About Center For ReSource Conservation...

The Center for ReSource Conservation (CRC), an environmental nonprofit based in Boulder, Colorado, administers Slow the Flow Colorado in partnership with fifteen participating Colorado water providers. The CRC's mission is to empower our community to conserve natural resources.

Each year, the CRC empowers thousands of individuals to live a more sustainable life through programming in its energy, water, and waste divisions. Such programs include its reclaimed building material retail outlet, the ReSource Yard, and REAP, a residential energy action program.

In the spring look for other CRC water conservation programs, Garden-In-A-Box and our popular landscaping seminars!
